

ARTEMIS

powerful natural remedies

To our valued customer,

One of my key passions within my study has always been mother and baby care. During my formative years I was very fortunate to receive training with a very special teacher in Switzerland. Sister Pauline was a renowned Swiss Herbalist, Midwife & Nun who was a master in the art and science of traditional herbal remedies. Sister Pauline initiated me into many revered secrets of European Herbal Medicine and passed on valuable knowledge of this special lineage of medical herbalists.

It is predominantly from this training that my ARTEMIS range has grown, especially so the mother and baby product range. The individual recipes reflect the knowledge I acquired first hand in observing & helping Sister Pauline treat her patients. The new 100% organic ARTEMIS Baby Gripe Tea has been a valuable addition to the mother and baby product range, with many happy parents reporting a huge difference with colic, reflux, wind and digestive discomforts.

If you or someone you know is struggling with a baby with digestive discomfort make sure to recommend the new ARTEMIS Baby Gripe Tea.

Wishing you good health & happiness,

Sandra Clair, Managing Director
