

# ARTEMIS

powerful natural remedies

## To our valued customer,

Finally daylight savings ticks into action, and we are again able to enjoy longer days and warmer nights. As sports enthusiasts prepare for the summer season and students bunker down for the upcoming end of year exams it is time to de-stress and re-energize.

This month focuses on boosting energy levels naturally. The powerful combination of Sencha Green Tea and Rosemary makes the **ARTEMIS Repower** not only a delicious coffee substitute, but also an excellent free radical fighting anti-oxidant. Taken daily, the **ARTEMIS Repower** helps to build higher natural energy levels, as well as giving an instant energy kick. It lasts longer than coffee and has none of the rebound consequences.

Along with sports and study generally comes tired muscles and stiff joints. The fresh-plant **ARTEMIS Strain Repair Cream** (warming) is up to 6 x stronger than other creams on the market. It draws the active ingredients deep into the tissue to promote fast and effective healing.

Wishing you good health & happiness,

**Sandra Clair**, Managing Director  
M.A., Post. Grad. Dip. Health Science.

## ARTEMIS Repower Natural Energy

### Perfect for:

- People trying to kick the coffee cravings
- People looking to build higher long term energy levels
- New parents who need an energy boost
- Anyone who is looking to increase their everyday energy levels naturally!

“ I have been a heavy coffee drinker for the last 15 years – drinking 6 plus cups a days. Since I switched to **ARTEMIS Repower** I have noticed that my energy levels are a lot more consistent throughout the day. Previously I found I would be on a high after having a coffee, but this would quickly subside. For sometime I had been looking for a natural drink that would give me a kick start without all of the side effects and guess what? I’ve found it with **ARTEMIS Repower.**” *John Flintoft, Dunedin*
