

# ARTEMIS

powerful natural remedies

To our valued customer,

We are in our busiest time of year at present! The end of last month we were in Central Otago preparing the land for the upcoming St John's Wort Harvest, for the ARTEMIS Stress Relief Tea & the ARTEMIS Nerve & Skin Rescue Oil. I am a firm believer that the extreme climate conditions of Central Otago is the ideal landscape to provide some of the most potent and pure St John's Wort available in the world. It is no secret that it is one of my most favourite herbs; I look forward to harvesting in January.

The last few weeks however, we have been very busy doing an emergency harvest of Chickweed as our projections for the ARTEMIS Itch Calm Cream were well below the increasing popularity of this product. The fresh plant cream is popular especially in summer time as it is so effective in helping to manage all sorts of skin irritations from eczema to mosquito bites and sunburn. An absolute must in the family's first aid kit.

Next on the agenda is harvesting Thyme & Elderflower in the next few weeks for our delicious ARTEMIS Thyme Lemon & Elder Lemon Syrups.

Wishing you good health & happiness.

**Sandra Clair**, Managing Director

## Sexy Summer Legs

- Sick and tired of hiding your legs?
- Varicose or Spider Veins?
- Have swollen, aching legs?
- Want better looking legs?

This summer try the ARTEMIS Vein Support Tincture and Cream to achieve those sexy summer legs!

### What is different about the Cream & the Tincture?

Because vein problems are deep-seated it is important to treat them with an internal remedy. The tincture (oral drops) is an extra-strength internal remedy that treats congested and dilated veins. It also has high levels of essential nutrients that tighten capillaries, enhance their elasticity and decongest venous flow. They also reduce inflammation, itching & swelling.

The extra-strength cream is up to 6x stronger than other creams available in NZ. Apply externally to relieve the discomfort often associated with problem veins.

As a side note we also recommend these products for haemorrhoids. After all, these are just varicose veins in an unfortunate place!
